

# Make Up Sex

Montell Jordan

Make up sex  
That's what we are doing  
Girl whats next  
We are always getting into it

You know why I came to see you  
You don't take my calls  
And you won't return my pages  
I am yelling cause you are creaming  
Should I just pull out?  
These words can be misleading  
You scratch my back  
But its not a fight  
We finished arguing much earlier tonight  
What we're doing now  
Is what people do  
Seems like we're ending it  
But we're just having

Make up sex  
That's what we are doing  
Girl what's next  
We are always getting into it

Hush hush girl, neighbors can hear us  
It's too much noise  
(we gotta keep it down)  
Sometimes harsh words come between us  
But it's ok, cause it's a heated moment  
Ow!  
But its not a fight  
We finished arguing much earlier tonight  
What we're doing now  
Is what people do  
Seems like we're ending it  
But we're just having

I want you, I need you, we're having, make up sex  
We break up, and we make up, we're having, make up  
Sex when I touch you, and I tease you, just to please you,  
Make up sex when we make love, after making up, bout  
To tear it up ooh!
