

# Mine, Mine, Mine

Montell Jordan

Hey baby  
I like it when you're next to me  
With that body horizontally  
Your pretty legs comfortable in my bed  
In your lingerie with my pillow under your head  
And honey  
I like you cuz you trust in me  
Just so glad to have you on my team  
So I'll keep it real with you  
Girl I'm feelin' you, layin' here

- Layin' next to you at night  
Kissin' and holdin' you tight  
All of these things I like  
Girl you are mine, mine, mine

You got a lot of sex appeal  
I love the way you make me feel  
And what I feel is real  
Girl you're one of a kind

Hey lady  
You know just how to treat your man  
So I will always be your biggest fan  
I'll tell it all over the world, you're my closest friend  
Much more than my girl, would ya  
Stay with me and you just might see  
Some kind of jewelry  
That I know you've been waiting on  
Baby you're the reason all my other girls are gone  
What we share is so beautiful  
And I think I might just spend my life waking up next to you

Yo (all of these things I like)  
Turn around girl, oh (mine, mine, mine)  
Layin' next to you (got a lot of sex appeal)  
Just feels so right shorty  
I like that (mine, mine, mine)
