

# Damn Baby

Montgomery Gentry

Damn baby, are we crazy?  
Crazy enough to think that we might make it  
Well maybe, if we take it  
Slow enough to make love cause baby I believe

Never in my life girl have I  
Been this close to something so real  
Something so good that it makes me feel like...  
Damn baby!  
It's the way we...  
Take this thing to another place  
That I've never been.

Damn baby, you're driving me crazy  
What do you say we lock the door  
And leave the world outside  
Hey, break me, cause I've been known to  
Walk away when I get this close  
But baby not this time

Never in my life girl have I  
Been this close to something so real  
Something so good that it makes me feel like...  
Damn baby!  
It's the way we...  
Take this thing to another place  
That I've never been  
Damn baby!

Girl I ain't no fool  
Baby look at you

Damn baby!  
It's the way we...  
Take this thing to another place  
Yeah baby!  
You drive me crazy  
What do you say we lock the door  
And leave the world outside  
Damn baby!

Come on baby...
