

Drive On Home

Montgomery Gentry

I wonder if I'll still be here
Working the same job in a year
Alone some nights I pour a beer
And think about

All the things I can't control
My boss, the bills and growing old
I pray to God that down the road
It'll all work out
But all I know right now

Is I'll be up in the morning with coffee a pouring
And take it on down the road
I'll be swinging a hammer and climbing a ladder
And hauling that heavy load
And girl I'll keep on trying, keep on driving on
Driving through, just as long
As I can drive on home to you

I wanna buy that house you always slow down for
Park a new car in the drive and tell you it's yours
The fact that you don't want me to makes me want to more
That's what I'm working for

So I'll be up in the morning with coffee a pouring
And take it on down the road
I'll be swinging a hammer and climbing a ladder
And hauling that heavy load
And girl I'll keep on trying, keep on driving on
Driving through, just as long
As I can drive on home to you

Just to be all alone with you
It's all that I want to do
So, I do what I gotta do
Girl what I gotta do

Is be up in the morning with coffee a pouring
And take it on down the road
I'll be swinging a hammer and climbing a ladder
And hauling that heavy load
And girl I'll keep on trying, keep on driving on
Driving through, just as long
As I can drive on home to you

Baby drive
Drive on home to you
