

Hillbilly Hippies

Montgomery Gentry

Hey baby get your headband on
I'll be your rolling stone
Hop in here and we'll be gone
I know a little place out where
You can go around barefoot there
Put flowers in your hair

Let's all hang out, tip it back and get trippy
Get down, get down like hillbilly hippies
Let's all peace out in the country, are you with me?
Throw down, throw down like hillbilly hippies

We got some friends like us
Fill up a crew cab truck
Like an old VW bus
My folks rollin' down the window
Bring along an old 6 string
Somebody might wanna sing
Little long hair country boy sing
Hay bale over by the corn row

Let's all hang out, tip it back and get trippy
Get down, get down like hillbilly hippies
Let's all peace out in the country, are you with me?
Throw down, throw down like hillbilly hippies

Make this the summer of love
Make this the summer of love

Kick it on back like you're on the road with Willie
Get down, get down

Let's all hang out, tip it back and get trippy
Get down, get down like hillbilly hippies
Let's all peace out in the country, are you with me?
Throw down, throw down like hillbilly hippies
