

One Of Those Days

Montgomery Gentry

Well, I swear sometimes I feel like I've been sitting at a red light watchin
g my whole life pass me by
one car at a time
And it feels like I've been banging my head against the wall again
somebody let me in, come on give me some space
I need to get outta this place
Well, I'm the one always saying one of these days
While everybody else is out there putting my world to shame

R: Well, I'm putting that peddle down on the floor
Wanna hear that 69 engine roar and live for a change
Feels like one of those days
Yeah, no more waiting 'round like a fool
Gonna do what I say, say what I do
So, get outta my way, it's gonna be one of those days
It's feeling like one of those days, yeah

I'm sick of all this traffic, just about had it
Can't breathe, can't think, my God I'm on a brink of a break down, I gotta g
et outta this town
I wanna go somewhere where nobody stares
nobody knows nothing 'bout me, wouldn't that be something to see
A place where I can run free
I'm the one that always saying one of those days
Tired of hearing myself talking when all I do is complain

R:

Well, I'm putting that peddle down on the floor
Wanna hear that 69 engine roar and live for a change
Feels like one of those days
No more waiting 'round like a fool
Gonna do what I say, say what I do
So, get outta my way, it's gonna be one of those days
It's feeling like one of those days

Where I take that ride and climb a few walls
And I chase a few dreams and I kick a little butt
And I take a few leaps so, get outta my way
It's gonna be one of those days, Yeah yay

R:

Well, I'm putting that peddle down on the floor
Wanna hear that 69 engine roar and live for a change
Feels like one of those days
No more waiting 'round like a fool
Gonna do what I say, say what I do
So, get outta my way, it's gonna be one of those days
It's feeling like one of those days

Feeling like one of those days, Oooooohhhh
It's feeling like one of those days, Come on
