

# While You're Still Young

Montgomery Gentry

Blowin out spring break with your not right friends  
Wake up on the beach with new ink on your skin  
Do something crazy and dumb while you're still young

Go on and tie the knot, start a new life  
Take turns gettin up when the baby cries  
Living on nothing but love while you're still young

[Chorus:]

Life is too short to put it off anymore  
You gotta live it before, it's too late  
Can't turn that clock back around  
On what your dreamin about  
You better do it now don't wait

In your two weeks at the dead end job  
Do what u love be your own boss  
Do waht they say cant be done  
While you're still young

[Chorus:]

Life is too short to put it off anymore  
You gotta live it before, it's too late  
Can't turn that clock back around  
On what your dreamin about  
You better do it now don't wait  
Don't wait

[guitar solo]

Take a gold watch, sell everything  
Throw a dart at the map  
Hook up the air stream  
Ride into that setting sun  
Do something crazy and dumb  
While you're still young  
While we're still young  
You're still young!
