

Walking Through The Rain

Montreal

Hand in hand and side by side we walked together day and night
'had times of fun and times of pain but what is left is cold cold rain

I'm walkin' through the rain again since you're not by my side/
by my side

Our relation was very special we saved each other from depression

Now since you left I try and try but I don't manage reaching my home dry

You took my umbrella away now I'm gettin' wet everyday
you fucking bitch give it back I'm gonna catch a cold of being wet
