

Hold On

Moodorama

Holdin' on
You're better holdin' on to what you've got
You're better holdin' on
That's what I'm asking you for

Going on
You're better going on and save my life
You're better going on
And save my life
At least for a little while
Just save my life
At least for a little time
Just save my life
That's all I'm asking you for

At least for a little while
Hold me at least for a little while
At least for a little while
Gimme some of your love

Drop down the tear
Wipe out your eye
And leave it all far behind
Hold on to me
Just stay for a while
I will be there if you don't mind
