

Sinzing Sunset Boulevard

Moodorama

When you appeared and suddenly i saw myself

Again nobody knew who i was not even me

Did i find me or another us - who knows

But i don't care anymore

Simple things in life are the best

Love so warm besides

Simple things in life are the best

Love so warm besides

I took up the chase and tried to catch as much as possible

Didn't find truth how should i know my fate was life

Can you hear the edge i do and i think it's harmless

Otherlands like you unknown and new

Simple things in life are the best

Love so warm besides

Simple things in life are the best

Love so warm besides

I fell in love and then it took me up

But my soul needs the flow

Can't tear me up

Simple things in life are the best

Love so warm besides

Simple things in life are the best

Love so warm besides

Overwhelming the strength gave me the sense of life

Could it be so wrong the pulse should never die

Then beauty strikes and life comes out of the golden days

I fell in love and then it took me up

Simple things in life are the best

Love so warm besides

Simple things in life are the best

Love so warm besides
