

American Banned

Moonshine Bandits

You know what
This song right here goes out to every single music venue
Every bar any spot that's banned me, banned us
Banned my Shiner family
For having a damn good time
This one right here goes out to you

Used to mail my to the suiots and ties
Saving my money just to write more rhymes
Praying to God, will he show me a sign
All I saw was Satan, all I heard was lies
Radio hates me, just like coke
They ain't gonna play me and this I know
So I grabbed the cloud and rode that bitch
All my Shiners, a gun to bump it
This is for the bikers in the blacked out Rednecks bumping Cash, Hank and Ha
ggard
Still rolling stoned, call me slick Mick Jagger
Lift kit high, grab my dad a ladder
Bought my own bus, bought my own bar
Billboard charge 'cause I work so hard
Small town living, still shopping at Walmart
To pornstar women, tell mama I'm a rockstar

Oh we've been banned across America
For raising too much hell across the lands
So if you think my Shiners are to rowdy for ya
Well here's a middle finger from my hand

Sold out shows every time I throw down
Mama said "Son, boy you better slow down"
I'm living too fast I ain't pumping my breaks
Tell to come and run my plates
TV hates me just like coke
Had my own chow just like Big Smo
switched up
I'm too outlaw for a pickup
Guess we've been banned, they don't wanna see us play
The hard rock stage at the CMAs
into any state
I'm a renegade, I'm a goddamn renegade
riders banned our band
The William Sturges of Disneyland
Ain't no sugarcoating what I'm saying
Here's to me and the hell I'm raising

Oh we've been banned across America
For raising too much hell across the lands
So if you think my Shiners are to rowdy for ya
Well here's a middle finger from my hand

Oh we've been banned across America
For raising too much hell across the lands
So if you think my Shiners are to rowdy for ya
Well here's a middle finger from my hand

Oh we've been banned across America

For raising too much hell across the lands
So if you think my Shiners are to rowdy for ya
Well here's a middle finger from my hand
