

# Blacked Out

## Moonshine Bandits

We get blacked out  
We get blacked out

The truck that I'm rolling (Blacked out)  
The smoke that I'm blowing (Blacked out)  
back road, no light, we're (Blacked out)  
By the end of the night we'll be (Blacked out)  
The truck that I'm rolling (Blacked out)  
The smoke that I'm blowing (Blacked out)  
back road, no light, we're (Blacked out)  
By the end of the night we'll be (Blacked out)

We get blacked out, blacked out, blacked out, blacked out  
We get blacked out, blacked out, blacked out, blacked out

Bus all black, truck all black  
Half that Jack but I won't black out  
bump that man in black  
all blacked out in a Cadillac  
Pull that throttle back  
said I don't black out from a bottle of Jack  
so sip that, pass it back  
hit a bump in the sub when the bass go slap  
slicker than a I'm a bulldog's jaw  
tougher than a black out super dude he gonna rock out  
you talk too slick, boy you get blacked out

The truck that I'm rolling (Blacked out)  
The smoke that I'm blowing (Blacked out)  
back road, no light, we're (Blacked out)  
By the end of the night we'll be (Blacked out)  
The truck that I'm rolling (Blacked out)  
The smoke that I'm blowing (Blacked out)  
back road, no light, we're (Blacked out)  
By the end of the night we'll be (Blacked out)

We get blacked out, blacked out, blacked out, blacked out  
We get blacked out, blacked out, blacked out, blacked out

I don't remember yesterday  
i just know I was on the stage  
now I'm drifting down that lonely road  
through another state  
blacked out from the moment  
of them screaming fans holding on to me  
yeah, I was born to play the highway  
but I never sold my soul  
I won't stop till I've been in every town  
I don't know when I'll go home  
I'm living in the moment  
you see me on the stage  
blacked out, blacked out

The truck that I'm rolling (Blacked out)  
The smoke that I'm blowing (Blacked out)  
back road, no light, we're (Blacked out)  
By the end of the night we'll be (Blacked out)

The truck that I'm rolling (Blacked out)  
The smoke that I'm blowing (Blacked out)  
back road, no light, we're (Blacked out)  
By the end of the night we'll be (Blacked out)

We get blacked out, blacked out, blacked out, blacked out  
We get blacked out, blacked out, blacked out, blacked out
