

Lady Luck

Moonshine Bandits

I'm out late getting drunk
Cracking a couple of beers
She walks in looking finer than sand
I swear to god the whole bar stood still
She had 'em cowboy boots and daisy dukes
A rebel Dixie smile
Kind of girl your mama warned you about
[?], she want that...

Bad boy with the tats all black, with the piece on the way girl
Wanna be my lady love
Wanna see what the world could be with the rebel on the run, living wild and free
Then get your Dixie ass in this truck

Kick off them cowboy boots and daisy dukes
And see your Dixie smile
Girl I'm the boy your daddy warned you about
But you know it's just driving me wild
So just for getting time, we've got the shine
Let's fall in love
If this is living in a country dream
Baby girl I ain't waking up

Turbo diesel, kick the dust up on the back roads till the cops come bust us
Tailgate down once I back the truck up, tell your pops he's not to trust us
He's so worried, get her home early, I'm riding dirty with a fifth of gin
Long blonde hair whipping in the wind, high on life but we live in a tent

She's the kind of girl that'll blow your mind
The kind of girl that'll ride shotgun all night
A dive bar legend, my tattoo queen
She love that Kid Rock, Johnny Cash and Bruce Springsteen

Kick off them cowboy boots and daisy dukes
And see your Dixie smile
Girl I'm the boy your daddy warned you about
But you know it's just driving me wild
So just for getting time, we've got the shine
Let's fall in love
If this is living in a country dream
Baby girl I ain't waking up

Crank it up lady luck, you're still a little girl that your mama loves
I'm bad news, my tattoos, I'm everything she said I was
18 pack full of Natty Light, one hot night, one long drive
Ride with the devil, can't tame this rebel, 'cause mama tried, mama tried

She's the kind of girl that'll blow your mind
The kind of girl that'll ride shotgun all night
A dive bar legend, my tattoo queen
She love that Kid Rock, Johnny Cash and Bruce Springsteen

Kick off them cowboy boots and daisy dukes
And see your Dixie smile
Girl I'm the boy your daddy warned you about
But you know it's just driving me wild

So just for getting time, we've got the shine
Let's fall in love
If this is living in a country dream
Baby girl I ain't waking up
