

Heartshaped Abyss

Moonspell

Never resist

The firewalker
To educate you
never look back
He has been sent
at the great Deep
that curse he sings
and never dance to

Never resist

The life long Pessimist
he is the leader
and not the enemy
My heart complete
my darkness is obsolete
please let me follow you
put to destroy you
And when we meet there

Into the Heartshaped abyss
into the heartshaped abyss
you'll scar my your kiss
you'll forgive me everything
and when we meet there
get away

scared away

Never resist the firewalker
he has been sent to lay a curse on you
Liar I am ready to push you
never look back; never resist

Into the Heartshaped abyss
And when we meet there
you'll scar my your kiss
and when we meet there
you'll forgive me everything
into the heartshaped abyss
scared away
get away
to a place we are still beautiful

Let's get away from this world

Abismo portátil, em forma de coração
