

# The Future Is Dark

## Moonspell

Oh, my son too young to understand that life is dark sometimes  
There is just not enough light  
And you, you broke me everyday, but I fought you back  
I think I could die in the next room without you noticing

Where do we go, where do we go from here and where do we go?  
Where do we go, where do we go from here, what happened to us?

Gotta breathe in, gotta breathe out  
Up on your feet, gotta think twice  
The future is dark, the future is vile  
Without you there's no tomorrow

We, we die alone, but we live without  
And yes, it hurts me so to realize that death won't do us  
Won't do us part, but something  
Something else might

Where do we go, where do we go from here and where do we go?  
Where do we go, where do we go from here, what happened to us?

Gotta breathe in, gotta breathe out  
Up on your feet, gotta think twice  
The future is dark, the future is vile  
Without you there's no tomorrow  
Gotta breathe in, gotta breathe out  
Up on your feet, gotta think twice  
The future is dark, it's all that we've got  
Without you there's no tomorrow
