

Blades for Baal

Morbid Angel

One spills his blood for horror
Choice alone to suffer
Infernal voices calling

Catastrophe no waiting
10 more encircled wailing
It's his existence glowing

Blades for Baal
Demanding sharp and glistening slice
He can't fail
Join them is the one device

We spill and poison ground
Below the farther's calling
His light will be unbound
Once fallen angel spreads his wings

Blades for Baal...

Two down on grounds unhallowed
With 9 more soon to follow
With reaches all but shallow...

Purest of all intent
Their candles burn both ends
Their juices wind and rain... Insane

Blades for Baal
Demanding sharp and glistening slice
He can't fail
Join them is the one device

Blades for Baal
All around me shining bright
Life-trade for this
Death to bring eternal night

Blades for Baal

... In the readings never found
Of ways to keep this Evil down
Time unmask the deepest seal
For all the cursed who choose to reveal

Darkness takes another chance
Luring to the ritual dance
Collect the fallen necromance
And decidedly gathering all

Give welcome torment
Welcome blessing's fall
No crime just reason
Just an end to all

Mine is the one true Baal
Curse him no avail

He eats and drinks and burns you hail

So be the sacrifice
You really have no choice
Our lives his only vice
Give to him his drink then burn

Blades for Baal
Blades for Baal
