Maze of Torment

Morbid Angel

Life betrayal - a warping rage Evil ripping caverns through your mind Immolation - in blood you've signed your soul away Sickening life ends but the horror has just begun Vultures moaning a funeral dirge Walls await to cradle you and rip your soul apart Incessant screams echoes through the maze Insanity approaches - imminent demise Maze of torment... Maze of death Stricken from the holy book deliverance to pain Effiqy of jesus christ burning in your mind Voices cry out to bid you welcome Locked within the dungeons of darkness - no escape !!! Maze of torment... Maze of death Passing through corridors embedded with Scars of those who have gone before you And left their marks Warning comes to late to save you now Visions of suffering stab from the inside You pray for death Mourning does no good as you can only die once Souls are being raped by the maze Lost in these halls... endlessly Maze of torment... Maze of death
