

# Profundis - Mea Culpa

Morbid Angel

Crimen Profundis

I will lead the way

Divinum formidilosus impetus

I will accept all of the blame

Mea culpa... Mea mea culpa  
Black will cover all and smother all  
Black will never fail to bring terror for all  
No traces of illumination sight without light  
Under cruel reign of shadows  
We will only have night  
Eternal night

Illud Divinum Insane

Mea mea... Mea culpa for the terrors brought  
We're the monsters caedo caedo  
And our sounds are overwrought

Grieve right live in fright fright  
Grieve right live in fright fright

Illud Divinum Insane

Mea mea... Mea culpa  
For the terrors brought  
We're the monsters caedo caedo  
And our sounds are overwrought  
Mea mea... Mea culpa for insanity  
Twist the minds of all who hear  
Our deadly sounds ever made it be

Crimen Profundis

I will lead the way

Novus Lex Legis Profano

My sickness will lay claim

Mea culpa... Mea mea culpa  
Terror's ease unease and disease  
We make the mass of charlatans  
Fall down to their knees  
They worship but can't follow us  
What stars we must be!!!  
Majesty...
