

# Beat of the Drum

Morcheeba

As the sun shines down on me  
The landmass is approaching  
Sixty brave souls out at sea  
Dragon's head cuts through the ocean

To see them waving on the shore  
Would fill my heart forever more

To the beat of the drum, we travel on  
Courageous we sail into the storm  
Singing our song and feeling strong  
On a voyage to where we all belong

To the beat of the drum, we travel on  
Courageous we sail into the storm  
Singing our song and feeling strong  
On a voyage to where we all belong

We have been away a while  
I can't wait to see relations  
Tell them of our tales  
That were lost for generations

To see them waving on the shore  
Would fill my heart forever more

To the beat of the drum, we travel on  
Courageous we sail into the storm  
Singing our song and feeling strong  
On a voyage to where we all belong

To the beat of the drum, we travel on  
Courageous we sail into the storm  
Singing our song and feeling strong  
On a voyage to where we all belong

I have missed the children grow  
And I've missed my love's affection  
Everywhere I go  
I pray for their protection

To see them waving on the shore  
Would fill my heart forever more

To the beat of the drum, we travel on  
Courageous we sail into the storm  
Singing our song and feeling strong  
On a voyage to where we all belong

To the beat of the drum, we travel on  
Courageous we sail into the storm  
Singing our song and feeling strong  
On a voyage to where we all belong

To the beat of the drum...  
To the beat of the drum...  
To the beat of the drum...

To the beat of the drum...
