Fear and Love

Morcheeba

We always have a choice Or at least I think we do We can always use our voice I thought this to be true We can live in fear Extend our selves to love We can fall below Or lift our selves above

Fear can stop you loving Love can stop your fear Fear can stop you loving But it's not always that clear

I always try so hard To share my self around But now I'm closing up again Drilling through the ground

Fear can stop you loving Love can stop your fear Fear can stop you loving But it's not always that clear

I'd love to give my self away But I find it hard to trust I've got no map to find my way Amongst these clouds of dust

Fear can stop you loving Love can stop your fear Fear can stop you loving Love can stop your fear Fear can stop you loving Love can stop your fear Fear can stop you loving But it's not always that clear (4x)
