

# Flowers

Morcheeba

What I do girl, I did for you  
Couldn't see him loving you like I do  
What I do girl, I did for you  
Couldn't see him loving you like I do

What if flowers came in black and white  
Would you still call to me  
If I was growing like a tiny seed  
Would you still water me

Lovers, lovers weekend on the beach  
Used to be us holding hands  
But now I love to freeze

Ya'll, two making one  
Watching the sun go down under the sheets  
Me, you're killing, sick in the rain  
Tears froze yesterday, I can't frame  
Ya'll, the picture of what I see  
You're touching him not touching me, whatever

What I do girl, I did for you  
Couldn't see him loving you like I do  
What I do girl, I did for you  
Couldn't see him loving you like I do, now

What if flowers came in black and white  
Would you still call to me  
If I was growing like a tiny seed  
Would you still water me

Uh, the door was unlocked  
I walked in the house and the door I lock  
Sand, sand everywhere  
Clothes on the stairs, the moment I feared  
What I could hear  
Blazed my heart and cursed my ear  
I stood in the doorway  
When was the last time we kissed that way  
I moved so fast, there was no time to defend my blast  
Before we hit the floor  
All I heard was calling "don't hit him no more"

What I do girl, I did for you  
Couldn't see him loving you like I do  
What I do girl, I did for you  
Couldn't see him loving you like I do, now

Stay with me, don't disappear

What if flowers came in black and white  
Would you still call to me  
If I was growing like a tiny seed  
Would you still water me

What I do girl, I did for you  
Couldn't see him loving you like I do

What I do girl, I did for you  
Couldn't see him loving you like I do, uh

Dance with me like we did last year  
Stay with me, don't disappear

Dance with me like we did last year  
Stay with me, don't disappear

Dance with me like we did last year  
Stay with me, don't disappear

Dance with me like we did last year  
Stay with me, don't disappear
