

## Sever And Splice

Mordred

Twisted dreams of tortured screams victims chained to die  
A darkened cell of living hell with none to hear the cry  
Perverted minds the most maligned plot your night of doom  
The sullen earth of death or birth becomes your vile tomb

Sever and Splice  
Hatchet and knife  
Torture and lust  
Taking your life

Axe to head a mortal's dead as screams tear through the night  
The searing pain of severed veins to bone the blade shall bite  
Lust and hate desecrate fulfill your ghastly needs  
Rape and maul your bones to haul disguise your evil deeds

[Chorus]

[Solos]

Get away flee today bodies have been found  
Rotting flesh horrid death bones beneath the ground  
Deathly reek lawmen seek corpses of deceased  
Twist and turn writhe and burn none will be released

One dies by suicide - Took life by cyanide  
One fled to foreign land - free now to kill again  
Lurk stalk with evil eye - Hack slash to take your life  
Bent mind - A deadly rape  
Run hide - He has escaped
