

## Cease Fire (SOS)

More Than a Thousand

Cease fire  
please take me out of here  
Cease fire  
I never asked for this  
Please god take me home...  
...now safe at home...  
But i still remember  
how the earth was  
Bleeding and the white flashing lights  
over and over...  
awake to their sound, awake to their sound  
couldn't fall asleep...

Stupid war i won't fall for you  
Anymore... god save our souls in here

And every single second we lived more  
All the stupid hope that we held  
Everything started to fade away  
Everyone said "this is hell"  
you're the  
Wave that swallows men and their  
Dreams, you're the biggest of all when it  
Comes to "kill"  
and only the dead knows  
Who you really are  
but all of the dead are  
Now gone far,  
the earth was bleeding...

Stupid war i won't fall for you  
Anymore... god save our souls in here  
Stupid war i won't fall for you  
Anymore... god save our souls in here

But nothing was left to save  
nothing was left to say  
when we were dragged  
Through the mud,  
nothing was left to  
Save nothing was left to say  
after dagging our souls through hell...
