Before I go  
I guess I've got time to kill  
So one more drink  
To keep me from the morning spill

I put two and two together and I guess I was right  
I was right about you  
But if I pull myself together than I know I'm alright  
I can make it back to life

Until this goes away  
The hardest part of me still remember everything  
I remember everything, remember everything  
I remember everything

So when things change  
I didn't doubt the part I played  
A bittersweet ending to the life I've made

I put two and two together and I guess I was right  
I was right about you  
But if I pull myself together than I know I'll be fine  
I can make it back to life

Until this goes away  
The hardest part of me still remember everything  
I remember everything, remember everything  
I remember everything

I put two and two together and I guess I was right  
I was right about you  
But if I pull myself together than I know I'll be fine  
I can make it back to life

Until this goes away  
The hardest part of me still remember everything  
I remember everything, remember everything  
I remember everything

Teeth white smile white  
Distant look here in my eyes  
I can fake it all the time  
Teeth white smile white  
Distant look here in my eyes  
I can fake it all the time
