

# The Only One

Morgan Page

Is this what you wanted?  
All these colors make a mess  
Is this what you had in mind for me?  
We crash, we burn, we fight  
You keep me up all night  
You've got me wrapped around again  
You've got me wrapped around

Could this be love?  
Could you be the only one?  
Could this be love?  
Am I fighting a feeling?

I feel that you are slipping through my hands  
It's just a mistake I've made  
Wish that you felt the same  
I told you once that I may not be good  
Is everything I've felt inside my head  
Slipping through my hands?

Could this be love?  
Could you be the only one?  
Could this be love?  
Am I fighting a feeling?

Could this be love?  
Could you be the only one?  
Could this be love?  
Am I fighting a feeling?

Could this be love?  
Could you be the only one?  
Could this be love?  
Am I fighting a feeling?

Could this be love?  
Could you be the only one?  
Could this be love?  
Am I fighting a feeling?
