

Under (Morgan Page Remix)

Morgan Page

(Baby...)

Where there was no reason now, there is plenty.
I'm tired as death and sleep, somehow, has become empty
And this remains to be seen.

Your sister called me late last night
And she regrets the situation, it seems.
She asked for reason, for explanation
And there was. She asked for reason,
And there was...

Never a happier rain, a more pleasant gray.
Surprise, you are alive and...

This is taking me under. (3x)

The second time in one chance,
It's better than the first time. We didn't know.
Against a wall and now I'm caught.
And down the street, I am afflicted.
And there was...

Never a happier rain, a more pleasant gray.
Surprise, you are alive and...
You are alive and...

This is taking me under. (3x)

(Ooohh...) Under... (2x)
This is taking me under. (3x)
This is taking me under. (Mmm....) (2x)
Under... (3x)

You are alive and...

This is taking me under. (3x)
(Ooohh...)
