Hide inside like a middle school kid  
Flip the screen of the tube instead  
Horror films in black and white  
Pull the shades from day to night

I knew I was  
Looking for thrills  
I lose myself  
Looking for thrills  
I knew I was  
Looking for thrills  
I lose myself  
Looking for thrills

My mind is full of video tape  
Hit the streets so hard  
Take your body in the night  
My mind is full of video tape  
Hit the streets so hard  
Take your body in the night

When the moon comes out, I know where I wanna be  
When the moon comes out, I know where I wanna be

Run the scene like a million times  
Spinning out as the tension climbs  
Horror films in black and white  
Pull the shades from day to night

I knew I was  
Looking for thrills  
I lose myself  
Looking for thrills
