

## Another Dawn

Morgana Lefay

Oh Daddy come and see please come and talk to me I am so alone  
and scared  
No, you must not cry I know I am gonna die but I need to see yo  
u strong  
Death is getting close within please hold me in your arms when  
I fly away  
Daddy, are you here can you see her eyes they're gleaming like  
the stars  
An angel from above she wants me to come to the shining light  
I see visions giant birds of prey will come to take me far away  
I ain't scared no more the place where I will go will take away  
the pain  
you are fading away to a shade of grey and I meet another dawn
