

## Where Insanity Rules

Morgana Lefay

Do they listen to what you say do you care about decisions they  
make  
do you want them to rule the game they decide and you have to o  
bey  
They rule the world but in fact they are insane what's going on  
in their  
empty brains their conclusions and philosophy does it really bo  
ther me  
It's a political chaos where insanity rules  
What the fuck do they know about the reality show  
can they see anything at all from behind those walls  
They make the rules for you to follow what's going on in their  
empty brains  
prohibitions and depreciations does it really bother me  
It's a political chaos...  
They live like kings with diamond rings  
I weep the poor with their broken dreams  
I can't believe that it's for real their life of ease is someth  
ing  
that I can't feel all the money they make on their political mi  
stakes  
They make the rules for you to follow what's going on in their  
empty brains  
they make it worse for the common beings and that really bother  
s me  
It's a political chaos...
