

## Eternal Sanctity

Morgoth

the environment strangles the weak  
radiation kills the strong  
fade away in nuclear winter  
final death comes from inside  
leftover humans must survive  
greed - no boundaries  
reason is obscure  
the eternal sanctity  
synthetic beings conquer  
human counter disappears  
struggling for a new life again  
germs populate the world  
no respect in this nuclear time  
cries die away
