

# Born To Be Free

Moriah Peters

Come, what you running away from  
Come, there's only liberty here  
Now open arms surround you  
Now love will conquer your fear  
Look up let go the pain that you've seen  
You've been who you are  
Not who You could be

Lift up open hands  
Reach out where you stand  
Wherever you are know that you are  
Born to be free  
One man sacrifice  
One death for all life  
Don't forget it  
You're forgiven  
Born to be free

Bring every imperfection  
Bring every hurt you hide  
Look up let go leave it behind  
Healing is here now  
There's no need to fight

Lift up open hands  
Reach out where you stand  
Wherever you are know that you are  
Born to be free  
One man sacrifice  
One death for all life  
Don't forget it  
You're forgiven  
Born to be free

Come what you running away from  
Come there's only liberty here

Lift up open hands  
Reach out where you stand  
Wherever you are know that you are  
Born to be free  
One man sacrifice  
One death for all life  
Don't forget it  
You're forgiven  
Born to be free

Lift up open hands  
Reach out where you stand  
Wherever you are know that you are  
Born to be free  
One man sacrifice  
One death for all life  
Hallelujah, Hallelujah  
We're Born to be free
