

# Stand Strong

Moriah Peters

With a soul as bold as lions  
And a strength to face the giants  
Come and join us in the silence  
For the King who saved the world  
Hear the voices in the night  
We sing till sunrise

Stand, stand strong  
Keep holding on  
We sing blessed are the persecuted  
Blessed are the weak and wounded  
This is your song  
Stand, stand strong  
Stand, stand strong

If the gravity pulls you down, down, down  
Or you're lost and want to get found  
Lift your eyes and turn around now  
Can you see you're not alone  
Raise our voices in the night and sing

Stand, stand strong  
Keep holding on  
We sing blessed are the persecuted  
Blessed are the weak and wounded  
This is your song  
Stand, stand strong  
Stand, stand strong

So do not be afraid  
He'll keep you safe  
Through fire He makes you brave  
So do not be afraid  
He'll keep you safe  
Through fire He makes you brave

Stand, stand strong  
Keep holding on  
Stand, stand strong  
Keep holding on  
We sing blessed are the persecuted  
Blessed are the weak and wounded  
This is your song  
Stand, stand strong  
Stand, stand strong  
Keep holding on  
Stand, stand strong
