

Stand Strong

Moriah Peters

With a soul as bold as lions
And a strength to face the giants
Come and join us in the silence
For the King who saved the world
Hear the voices in the night
We sing till sunrise

Stand, stand strong
Keep holding on
We sing blessed are the persecuted
Blessed are the weak and wounded
This is your song
Stand, stand strong
Stand, stand strong

If the gravity pulls you down, down, down
Or you're lost and want to get found
Lift your eyes and turn around now
Can you see you're not alone
Raise our voices in the night and sing

Stand, stand strong
Keep holding on
We sing blessed are the persecuted
Blessed are the weak and wounded
This is your song
Stand, stand strong
Stand, stand strong

So do not be afraid
He'll keep you safe
Through fire He makes you brave
So do not be afraid
He'll keep you safe
Through fire He makes you brave

Stand, stand strong
Keep holding on
Stand, stand strong
Keep holding on
We sing blessed are the persecuted
Blessed are the weak and wounded
This is your song
Stand, stand strong
Stand, stand strong
Keep holding on
Stand, stand strong
