

Fireday

Moriarty

She got up tears tired, clear crystal day
It was may day, worker's day, fighter's day
Fire day, red day, mayday, in the hey day
Back in the days, the soviet parades
Standing side by side in the shade
Kissin' and cussin', strivin' and tryin'
Fussin', Bumpin', stickin'
Hey Girl stop sleepin
Hey Girl quit cryin'
She has to swerve the system
Search the engine
Pull out the screw
The true screw, the real screw
The one that'll make it all come down
Standing side by side in the shade
Kissin' and cussin', strivin' and tryin'
Fussin', Bumpin' and crying
Hey Girl, Stop shakin'
Hey Girl, start something
