

A Head with Wings

Morphine

I got a head with wings
I got a head with wings
I got a head with wings

And I can see so far away
I can see so clear
You would not believe
The view up here

I got a head with wings
A head with wings

Now I'm floating around up here
Way above the clouds
So high
Above the ground

And the only thing that
Holds my head to the ground
Is this
One little skinny string

I got a head with wings
A head with wings

I got a head with, yeah, ohh
A head with wings

I got a head with wings
I got a head with wings
I got a head with wings

And I can see so far away
Yeah, so far away
I can see the shadows fall
Across your face

I got a head with wings
A head with wings

I got a head with, yeah, yeah
A head with wings
A head with wings
Yeah, yeah
