

## Come Over

Morphine

After you go through the lights  
take the first left and the next right  
Come in the back door c'mon inside  
Don't mind the dog he won't bite

I'll tell you where to park your car  
Around the corner in the dark  
If he finds you in my home  
You know he's gonna kill us both

Come over, come over, come over, come over  
Come over, come over, come over, come over tonight

Yeah!

That's it, that's it, that's it  
C'mon c'mon c'mon inside  
Up the stairs, be right behind  
Draw the shade, kill the light  
We don't care tonight!  
Not tonight

Come over, come over, come over, come over (4x)  
Come over, come over, come over, come over tonight
