

Early to Bed

Morphine

Early to bed and early to rise
Makes a man or woman miss out on the night life
Early to bed and early to rise
Makes a man or woman miss out on the night life
One drink call it a early night
Soon you're curled up beneath the reading light
Or you bathe in the TV's blue tint
On your pillow an after-dinner mint
Early to bed and early to rise
Makes a man or woman miss out on the night life
Early to bed and early to rise
Makes a man or woman miss out on the night life
Early to bed so you can wait
For three buses a trolley and a train
I think it's worth it for you to stay awake
Maybe tomorrow you'll be a little late
But early to bed and early to rise
Makes a man or woman miss out on the night life
Early to bed and early to rise
Makes a man or woman miss out on the night life
You'll miss out on the night life (2x)
