You're good, good, good  
Good  
You're good, good, good  
You're good

Somethin' tells me, somethin' tells me,  
somethin' tells me you can read my mind  
Somethin' tells me, somethin' tells me,  
somethin' tells me you can read my mind

Somethin' tells me you can read my mind  
Your brain is callin' to me one more time

Your brain, your brain,  
your brain is callin' to me one more time  
Your brain, your brain,  
your brain is callin' to me one more time  
You're good

You push, push, push  
So good  
You push, push, push  
You're good

Somethin' tells me, somethin' tells me,  
somethin' tells me you can read my mind  
Somethin' tells me, somethin' tells me,  
somethin' tells me you can read my mind

Somethin' tells me you can read my mind  
Your brain is callin' to me one more time  
Somethin' tells me you can read my mind  
Your brain is calling to me one more time

Your brain, your brain,  
your brain is callin' to me one more time  
Your brain, your brain,  
your brain is callin' to me one more time

You're good, good, good  
So good
