

## Let's Take a Trip Together

Morphine

Let's take a trip together  
Headlong into the irresistible orbit  
Breathe in the cold black space  
With the glistening edges

Let's take a trip me and you  
Let's go the scenic route  
Get to finally  
Get to finally  
Get to finally  
Get to know each other

Just to be alone with thee  
Just to be alone  
Just to be alone with thee

Somewhere there's no distracting breeze of information  
Leaking through the windows, dripping from the trees  
Somewhere there's no earthquakes  
Of other people's anxious questions  
No nervous wrecks  
Going down  
No nervous wrecks  
Going down

Let's take a trip together  
Headlong into the irresistible orbit
