

Like a Mirror

Morphine

Like a mirror, I'm nothin', I'm nothin', I'm nothin' 'til you look at me
I'm like a mirror. I'm like a mirror. I'm nothin' 'til you look at me
I'm like a mirror. I'm like a mirror. I'm nothin' 'til you look at me
I'm like a mirror, I'm like a mirror, I'm nothin' 'til you look at me
Martha Lee

Leave your world, come to me, I'm closer to you than I seem
Wish upon this melody and come to me, Martha Lee

Leave your world and join me soon, leave your world behind
You can take the Saturn line, in no time, no time

I know a ship that's leaving soon, oh in fact this afternoon
So don't forget your parachute, I'll be there to catch you

And you my future constellation, climb up here in the sky with me
Leave your world and come to me, I'm closer to you than I seem

Oh, wish upon this melody and come to me, come to me
Leave your world and join me soon, Martha Lee, Martha Lee

I know a ship that's leaving soon, in fact this very afternoon
So don't forget your parachute and I'll be there to catch you

I'm like a mirror, I'm like a mirror, I'm nothin' 'til you look at me
I'm like a mirror, I'm like a mirror, I'm nothin' 'til you look at me
