

My Brain

Morphine

My whole brain was out of tune
My whole brain was out of tune
I don't know how to tune a brain, do you?

Went in to a brain shop
They said they'd have to rebuild the whole head
I said well, do what you gotta do

When I got my brain back, it didn't work right
Didn't have as many good ideas
Haven't really have a good idea since I got it fixed
