

# My Love, I'd Do Anything for You

Morrissey

Teach your kids to recognize and to despise all the propaganda  
Filtered down by the dead echelons mainstream media

You know me well  
My love, I'd do anything for you  
Society's hell  
You need me just like I need you

Weren't we all born to mourn and to yawn at the occupations  
That control every day of our lives  
We can't live as we wish, live as we wish, live as we wish

You know me well  
My love, I'd do anything for you  
Society's hell  
You need me just like I need you  
You know me well  
My love, I'd do anything for you  
Society's hell  
You need me just like I need you

We all go our own ways  
Separately in the same direction  
And here am I every night of my life always missing someone

I'd like to be rotted out just before I become aware of the pain  
The more I wish in my heart for someone less likely they come
