Treat Me Like a Human Being

Morrissey

```
It's hard, but try
It's hard, but try
For once, just for once
Just for once
Leave all your hate behind you
It's still all so strange and obscene
For you to look and see one who is real
And who feels life

Three words could change my life
So once, just for once, just for once
Let the night pass with ease, so...
Treat me like a human being
I'd like to know how this feels

Three words could change my life
Yet you treat me like you never care
Although three words could change my life
You still treat me like you never care
```
