Blood on your hands
Fear in your eyes
Your retina scans have been recognised
Your running for miles
They're running your files
 Your DNA has been analysed
 Can we trust politicians won't misuse their trust
Mass surveillance they all know who we are
 You can't pretend anymore
 Keep your mouth shut you know you've broken the law
 Eye in the sky
 Eye in the sky
 Big brother big brother discovers your lie
Eye in the sky
 Eye in the sky
 The political machine has recorded your lie
Blood on the streets
 A young girl cries
No one is safe unless a minster dies
The governments rules
The governments fools
 The CIA has you terrorised
 Can we trust politicians won't misuse their trust
 Mass surveillance they all know who we are
 You can't pretend anymore
 Keep your mouth shut you know you've broken the law
 Eye in the sky
 Eye in the sky
 Big brother big brother discovers your lie
 Eye in the sky
 Eye in the sky
 The political machine has recorded your lie
Hey you! On camera two!
Why do you think the camera's pointed at you?
Can't you see on camera three
A dirty politician doesn't matter to me
 Eye in the sky
 Eye in the sky
Big brother big brother discovers your lie
Eye in the sky
 Eye in the sky
 The political machine has recorded your lie
