

Leave Her For You

Morten Abel

She is my mentor....mentor
My feet upon the ground
And yes I love her....love her
She keeps my mind sound
Weve been together
As long as I remember
Shes like a sister....sister
And my heart bleeds for her
But I leave her for you
Yes I do
I leave her for you
Yes I do
Shes from my hometown....hometown
We grew up together
She cares for the house when Im not around....
When I'm not around
And yes I love her
But I leave her for you
Yes I do
I leave her for you
Yes I do
Shes in the garden I take pictures of her
Shes in the garden I take pictures of her
Shes a cocktail of cherries and strawberries
We could never fail
But I leave her for you
Yes I do
I leave her for you
Yes I do
I leave her for you
Yes I do
I leave her for you
Yes I do
I leave her for you
Yes I do
I leave her for you
Yes I do
I leave her for you
