

# Tulipz

Morten Abel

True love's in my head  
I try to forget  
True love's in my head  
I try to forget

What's that?

I'm collecting butterflies  
Every colour, every size  
I keep them in a glass jar  
So I know where they are

And this one is a Silver King  
And this one's got a broken wing  
Tulipz in my head  
I try to forget  
Tulipz in my head  
I try to forget

What's that?

Then make sure you're the chrysalis  
The chrysalis is good to squeeze  
My collection isn't big  
I'm thinking about selling it

Onto someone insane  
Onto someone without a brain

Tulipz in my head  
I try to forget  
Tulipz in my head  
I try to forget

Tulipz in my head  
I try to forget  
Tulipz in my head  
I try to forget

And this one's from America  
I paid for it fifty dollars  
Netted by the Sioux Indians  
Near the Rocky Mountains

Butterflies take all my time  
I wish I was a butterfly  
fly fly fly fly... Dance!

My collection isn't big  
I'm thinking about selling it

Onto someone insane  
Onto someone without a brain

True love's in my head  
I try to forget  
True love's in my head

I try to forget

True love's in my head  
I try to forget  
True love's in my head  
I try to forget

True love's in my head  
I try to forget  
True love's in my head  
I try to forget

And This one's from America  
True love's in my head  
I try to forget  
And this one's from America  
True love's in my head  
I try to forget  
True love's in my head  
I try to forget  
True love's in my head  
I try to forget
