

Just Believe It

Morten Harket

Turn it on it's head
Put it to the ground
Throw it at the wind
Make it come around
You're on

Where are you going my love tonight
My dreams tonight
You're on

Don't stop now
Where are you going
Where do you lead me
Don't stop now
What do you reach for
We will reach it
Whatever you wish for
Just believe it

All is in the eye
Train it to a sound
Coming from inside
Turn it all around
You're on

Don't you tell me lies
Lost without a limit
Cuts you down to size
Nothing human in it
