Lightning

Morten Harket

Lightning,
You would hit me just like lightning,
Give me shelter from the rain
Stay down
Way down
You stay on my mind
Like a flashback like a wind out
I could feel you in my veins
Way down
But not quite like pain

I would give, give, give, give everything I own
I would live, live, live, live like I used to know
I would give, give, give, give everything I own
To find my way back home

You were lightning
Time went by, it's frightening
But it feels like nothing changed
Way down
Stay down
You stay on my mind
Like sparkles like a new?
You raise into my veins
Way down
Almost, but not quite like pain
I'm not quite the same anymore

I would give, give, give, give everything I own
I would live, live, live, live like I used to know
I would give, give, give, give everything I own
To find my way back home

I would give, give, give, give everything I own
I would live, live, live, live like I used to know
I would give, give, give, give everything I own
To find my way back home
