

Oh What a Night

Morten Harket

Oh what a night
Oh what a night
I fell from the sky
Into her arms
Out on a line
Oh what a night
She's waiting inside
Deep dark river
Rush me by
And this could set me free
Oh what a night
I can't recall when I stepped inside
Our blood is wild and free
Oh what a night
I knew it in my heart
I knew it from the stars
It's just the way we are
We have to fall apart
I knew it in my heart
I knew it from the stars
It's just the way we are
We have to fall apart
We have to fall apart
It happened at last
It happened so fast
A moment in heaven
Oceans apart
And this could set you free
Oh what a night
I knew it in my heart
I knew it from the stars
That's just the way we are
We have to fall apart
I knew it in my heart
I knew it from the stars
It's just the way we are
We have to fall apart
The way we are
We need to fall apart
We're made to fall apart
Oh what a night
I fell from the sky
