

Tell Me What You See

Morten Harket

Sleep, my love, sleep
Or look up at a sky
returning from its deep

See the moon go down
Watch the sun come 'round
Tell me what you see

Sleep, my love, sleep
Yeah, look into a world
You can no longer reach

Time's a one way track
There's no direction back
But when you're dreaming

Tell me what you see
Tell me what you see

Sleep, my love, sleep
Like you slept with me
When the world was a dream
That we believed
It was near
It was far
It answered to the stars
No one's ever been that close to me
What did you see

Tell me what you see
